EDUCATION

University of Keele, Staffordshire

Sept. 2014 - June 2017

BSc. COMPUTER SCIENCE AND PSYCHOLOGY (65%)

Dual honours course covering key areas of both disciplines, including software lifecycles, algorithms and data structures, web development, electronic commerce, and advanced statistics.

Additionally, supported by a breadth of important psychological theories.

Relevant Modules:

Advanced Programming Practices (73%), Data Structures and Algorithms (70%),
Electronic Commerce (64%), Research Methods (71%).

Demonstrated a highly developed approach to problem-solving, time management, independent research, critical evaluation, and autonomous work through the development of two final year projects. Proved capacity to communicate ideas effectively using evidence-based research, conduct scientific analysis using advanced statistics, and work as part of a team in other modules.
